Disclosure	STIBT offers a Security Procedure to protect the movement of funds from Customer's accounts.			
Security Procedure Options	<input checked="" type="checkbox"/> Option #1 – Security Call-Back Confirmation plus <u>Code Word</u>			
	When the Customer transmits a payment instruction to the Bank by means of Electronic Banking, E-Mail, Fax or letter, and that transfer exceeds the Minimum Security Amount Level , the Bank proceeds to call-back the Primary or the Secondary Authorized Call-Back contacts. This is done by first calling the Primary Contact at his or her Primary and Secondary Call-Back telephone numbers.			
	If Primary Call-Back Contact can't be reached, the same procedure is repeated with the Secondary Call-Back Contact. If a Call-Back contact is reached, STIBT will proceed to request confirmation of the transaction and to be given the pre-determined and mutually acceptable secret code word. If both the transaction detail confirmation and the code word are confirmed to STIBT by the Call-Back Person, the transaction will be executed. If any of the Call-Back Contacts can't be reached or the code word provided to STIBT is incorrect the transaction will NOT be executed and the Primary Contact Holder will be notified by means of an electronic message.			
	Minimum Security Amount Level: USD 0.00 (All transactions require Call-Back + Code Word confirmation)
